**Foster Motor Car Corp.,**  
Richmond, Virginia.  
Gentlemen:  
Mr. Jim's 1912 K purchased for our wife & Miss Jim's 1912  
Gen. Sixty-Horse-Power Touring Car. This car was constant-  
ly in use until the 10th day of January, 1913, travelling over  
8000 miles. This distance was covered mostly in path finding  
and in locating highways in Virginia, which necessitated trav-  
elling over some very rough roads.  
  
I have tested three automobiles made by different  
manufacturers. The Kline has done better work, and under the  
most severe usage, as stated above. We consider this car  
as good to-day as it was the day it was purchased; and 10 years  
wouldn't shorten because it has limped up. We expect this  
car to work as satisfactorily this year as it did last. In fact,  
it is now known how a car can be built better or stronger than a  
Kline.  
  
I am now having my car repainted. So I think all cars  
should be at this season of the year to protect the paint.  
Very truly yours,  
*Preston Belvoir*

Gentlemen: City.  
I beg to advise that I have owned and driven a Kline  
six cylinder car for three years and have been very much  
pleased with its performance.  
I consider the construction of the engine especially  
desirable, being of most approved and almost standard  
type without any freakish construction, which makes it very  
accessible for repairs, a very important feature.  
This car contains all the leading features of cars  
costing from \$1500 to \$2000. It is a pleasure to drive, being  
very comfortable seats, possessing remarkable flexibility,  
and you rarely have to change gears, even for very steep hills,  
and on account of the light weight, it is easy on tires and fuel.  
Last summer I drove from Richmond to Gettysburg  
returning via Blue Ridge Summit and the Valley of Virginia  
to Richmond without any trouble of any kind.  
For people living in this city, I consider the fact  
of the factory being located here a most decided advantage, and  
it seems to me that this feature would induce local purchases.  
Yours very truly,  
*E. M. Allen*

Gentlemen:  
The 5 passenger 30-14 P.T. Kline I  
purchased from you one year ago. I have  
been on continuous service during which time  
I have made several trips without  
accident or mishap. It has been a great  
comfort and pleasure to my family  
and friends. The expense of running  
& repairing has, as far as very much  
less than I anticipated. I do not hesitate  
to recommend the Kline when ever an opportunity  
presents itself. My family feel as  
comfortable and safe in the Kline as  
when living in a solid stone house.  
With my best regards

Dear Sirs:  
Replies to your favor of the 18th inst., we take  
pleasure in saying a few words in commendation of the Kline  
Car.  
We purchased a 4-30 Kline Kar from you last June  
and it has given the most severe service since we purchased it  
and it has stood up under every condition. If we were buying  
another car tomorrow we could not hesitate to purchase a Kline.  
Very truly yours,

Gentlemen:  
On January last we purchased from you a Kline 40.  
Since that time the car has traveled two thousand miles, not  
only in the city, but over rough country roads, and up to  
this time, it has not cost us one cent for repair. We consider  
it one of the best cars of its class on the market.  
Very truly yours,

Gentlemen:  
Just a year ago this month I bought of you a  
4-30 Kline Kar. I have driven this car starting over  
seven thousand miles which includes crossing three of our  
Virginia mountains. My total up-keep, exclusive of a very  
small tire expense, has not been twenty (\$20.00) Dollars, and  
I consider this car as good to-day as it was the day I bought it.  
It will average from fifteen to eighteen miles per gallon of  
gasoline and I have gotten as high as twenty miles per gallon.  
In view of these facts, it is useless for me to say  
that it has proven satisfactory. I can heartily recommend  
the Kline to any prospective purchaser wishing a combination of  
comfort, speed and durability.  
Yours very truly,  
*O. T. Hart*

Dear Sirs,  
Perfect Satisfaction can only  
express my experience with my Kline car. I have run my car  
over twelve months without a single trouble of any great amount,  
and with a total mileage of over 11,000 miles. I have  
owned several other cars but never did I really experience  
such automobile enjoyment as I did with my Kline, and now after  
all my travels over good and bad roads, the engine is as  
smooth and runs, if anything better, than new. I  
have nothing but good words for a Kline, and believe that any  
man that buys one will have just as much satisfaction as I  
have had. If he will treat it half way right.  
Very truly yours,  
*H. Ruppert*

Gentlemen:  
I take pleasure in advising you that during my  
trip from Richmond to Saranac Lake, N. Y., my Kline Kar  
gave me absolutely no trouble whatever. It was a real  
pleasure to drive same, and although the weather was extremely  
hot and the roads poor, the car performed well in every condition.  
The roads were not too good, and I believe that few cars  
could have stood the hard roads any better than mine.  
I know this information will be gladly received by  
you, and I am pleased to advise you of these facts.  
Yours very truly,  
*George D. Nutchols*

Gentlemen:  
Replying to your inquiry of March 10, beg to  
say that the Kline 30 I bought of you last May has given me  
every satisfaction so far. I am glad to inform you that  
up to the present time it has not needed, or had a penny  
spent for repairs or engine adjustments of any purpose, except  
gasoline, oil, etc. Of course we've taken care of the car, made  
proper care of the car, which, in my opinion, has all to do  
with the expense of maintaining any car. In my opinion there  
is no car on the market its equal at anything like the same  
price.  
Wishing you success, I remain,  
*E. W. Evans*
